Alice Springs, or 'The Alice', lies in the heart of Australia and is unofficially considered the capital of the Outback. While it was once regarded as a 'dead heart' during colonial times because of the surrounding barren landscapes, today both residents and visitors recognise the physical and spiritual importance of Australia's Centre. It is alive with Aboriginal traditions and sacred sites, a vibrant local art and culture, fascinating pioneering history and incredible landscapes.

THE CITY

coloursinmylife/Shutterstock.com

Alice Springs came to life in the 1870s, as a telegraph station by a small spring, and it was one of a series of repeater stations on the telegraph line linking Adelaide to Darwin to the rest of the world. Despite its isolated location, it became an important part of the communication network for Australia and the northern terminus of the Ghan Railway line. Today, it is still a communications and service hub for central Australia, with all the establishments you would expect in a modern town, grouped in the blocks surrounding the Todd Mall. Also, Alice is one of the main embarkation points for seeing Uluru, the famed red monolith 500 kilometres away.

There is a wealth of historical sights from the Old Ghan Railway to the Telegraph Station, with parks housing fascinating reptiles and birds, a host of fine dining cafes and restaurants, and amazing rocky landscapes right on the doorstep. Alice also enjoys a warm climate without the humidity of the Top End, so the city can be perfectly visited at any time of the year. It is particularly popular for a round of wacky festivals, bush sports and dusty regattas in the dry river bed during peak season.

Alice also remains a great place to learn more about the rich Aboriginal culture. Seeing the land through their eyes provides a deeper

understanding and insight into the true spirit of the area.

DO & SEE

Morgane LAVIEC/Shutterstock.com

Alice Springs is a great base for a holiday in Central Australia, so do allow at least a week to see the town and the surrounding area. Although you will likely still barely scratch the surface of what there is to do and see, the following spots should not be missed.

Uluru

Distance in Australia is a whole other thing to compared what you are probably used to, and Uluru (or Ayer's Rock) is approximately 450 km

southwest of Alice Springs — considering the vast distances existing in Oz, that is practically nothing. The large sandstone formation is pretty much in the middle of nowhere, in the pristine vastness of nature. The ground is sacred to the Anangu, the Aboriginal people in this area.

Kata Tjuta

Kata Tjuta, also known as Mount Olga or The Olgas, is similar to Uluru but different in shape. Lying only about 365 km southwest of Alice

Springs, it is — compared to its 'sibling' Uluru — only a stone's throw away, and definitely worth a visit. Once a single piece of rock, the Olgas are now made up of 36 domed formations that have weathered over millions of years.

Admire the impressive rocks from afar, for example, by taking the Valley of the Winds walk — a looped trail with fantastic viewpoints. You can walk right through the grooves for some stunning vistas and fewer crowds.

Karlu Karlu

Karlu Karlu, as the Aboriginal Australians say, or The Devil's Marbles, are gigantic rounded granite boulders spread across a valley.

They are one of the main tourist attractions in the Northern Territory. While pathways with information boards and a camping area on the grounds allow visitors to experience this sight all year long, rangers offer an exciting program of live events between May and October.

Anzac Hill

For a fantastic first glimpse of Alice, you should wander up to this war memorial from where you can also savour in the city's beautiful

surroundings. This viewpoint is best visited at sunrise or at sunset, so start or finish your day right by heading up here.

This monument is dedicated to the ANZACS (Australian and New Zealand Army Corps) of World War I. Dawn services are held each year on ANZAC day, April 25th.

DINING

arturasker/Shutterstock.com

In Alice Springs, there is something suitable for every budget, and most places are dotted around the centre allowing easy access. The greatest thing about Centralian food is that it matches its surroundings: hearty, wholesome, and plentiful. Make sure to try some local meats such as kangaroo, emu, or camel. You may even venture to try buffalo, crocodile or the varying flavours of bush tucker. However, if your tastes are more in line with contemporary Australian cuisine, you can count on anything from French bread to mouthwatering steaks, and from Asian curries to bush tucker in all the cafes, pubs, and restaurants around town.

Best Time to Visit

The heartland of the Outback, Alice Springs, can best be enjoyed during September, as this month — between an extremely cold winter and an unbearably hot summer — brings average temperatures of between 10 and 27 degrees Celsius. With its nice balance of hot and cold weather, as well as a more bearable humidity, this peak season attracts most visitors during the year so keep in mind to book flights and accommodation in advance, or perhaps consider a different period for your stay.
