THE CITY

Tana888/Shutterstock.com

Glasgow is the largest Scottish city, fourth in the United Kingdom, the Scottish economic capital and, most of all, preserves some of the richest historic heritage in the country.

The city is crossed by the Clyde River, around which the Roman general Gneus Julius Agricola — who played the main role during the Roman conquest of Britain — led the construction of some fortresses in 80 AD. The remains of those can still be seen in modern Glasgow. As the legend goes, hundreds of years later, the Christian missionary Saint Mungo founded the city and built a small wooden church close to Molendinar Burn, which centuries later will turn into the splendid Glasgow Cathedral.

Formally a major industrial and commercial centre, modern Glasgow is a flourishing centre for arts and culture. Over the past couple of decades, it has been named City of Culture, Capital of Sport, UNESCO City of Music and City of Architecture and Design. The latter is, perhaps, partly due to the abundance of unique buildings designed by legendary Scottish architect Charles Rennie Mackintosh that dot the city.

The areas of most interest to visitors are, of course, the City Centre, and the West End, a hip

area with some of Glasgow's coolest cafes and bars, also home to the University of Glasgow and the well-known Kelvingrove Museum. West of the city centre, on the banks of the River Clyde, sit the Science Centre and the Riverside Museum, both a must for tourists.

TOURIST INFORMATION

Best Time to Visit

The warmer spring and summer months from March to August are the best time to visit Glasgow, when nice temperatures and long daylight hours treat you to pleasant city walks and plenty of other outdoor activities. And with festivals filling the city's entire calendar from Piping Live! in the summer to Burns Night in the winter, the colder months are no less interesting — and have the added bonus of smaller crowds.

Passport & Visa

For travel to the UK, citizens of the EU, EEA, and Switzerland (except Irish citizens) need an Electronic Travel Authorisation (ETA).

However, those planning to work or study in the UK for more than six months will need to obtain the appropriate visa. Additionally, residents of nine other countries — including Australia, Canada, Hong Kong, Japan, Malaysia, New Zealand, Singapore, South Korea, and the United States — can also visit the UK for up to six months without a visa, but they will still need an ETA. To ensure a smooth journey, it is advisable to consult the UK government website for any specific visa requirements or regulations.
