Sylt, often referred to as the 'German Hamptons', has been a longstanding playground for Germany's rich and famous. Pronounced 'Zoolt,' Sylt is a stunning 40-km-long island on Germany's North Sea coast, which has one of the longest unbroken stretches of immaculate sandy beach in all of Europe. Apart from the sparkling sea, Sylt is celebrated for its invigorating sea air, idyllic Frisian houses, and endless fields of bright-yellow flowering rapeseed.

## THE ISLAND

*Jenny Sturm/Shutterstock.com*

People began visiting Sylt in the middle of the 19th century to take advantage of the iodine-rich air. In the 1960s, Sylt became famous for ‘the rich and the naked’, when the entire island became one big party. The island has grown up quite a bit since then, and it’s a tamer affair these days. With its Michelin-starred restaurants and a handful of cool bars, Sylt is one of the chicest destinations in Europe.

For an island that is only 40 kilometres long and 700 metres wide at its narrowest point, Sylt is a big, little place. The largest town is Westerland, which sits right in the middle of the island. Hörnum lies to the south, while at the northern end is List — the most northerly town in Germany. During summer, it gets quite busy. However, such is the magic of this island that it’s easy enough to leave the crowds behind and find your own bit of beach.

## SHOPPING

*travelview/Shutterstock*

Thanks to its status as a playground of the rich and famous, there is no shortage of designer shops on Sylt. However, it is not all about labels on the island — smaller, cuter shops and boutiques can also be found here. Kampen is home to elegant jewellers and designer boutiques with their luxury wares, while a wider, more down-to-earth variety of goods can be found in Westerland.

The shops on Sylt are a must for lovers of tea, honey and jam. Also worth a look are the art and craft shops and studios, traditional in the village of Rantum. Similar delights are also found hidden in the side streets of Keitum.

### Westerland

The island's capital is a great attraction for shopping enthusiasts. The pedestrian areas are where the action is, mainly on

Friedrichstrasse, Paulstrasse, Strandstrasse, and their connecting streets, which offer a vibrant array of shops. From boutiques and brand-name stores to smaller individual shops featuring souvenirs and leisure wear, the shopping scene is varied. In addition to retail therapy, visitors can explore art galleries and craft workshops, and unwind in charming cafés and restaurants scattered throughout the lively streets.

Kurhausstrasse, Hauptstrasse and 'Zur Uwe Düne', and you really will get a feel for how cosmopolitan and sophisticated Kampen is.

## TOURIST INFORMATION

Michael Thaler/Shutterstock

### Good to Know

All visitors to Sylt are charged a resort tax called a Kurtaxe that is spent on keeping the island beautiful and clean. In return, you receive a Kurkarte, or resort card, which gives you access to the beaches and discounts at museums. If you're staying at a hotel, the Kurtaxe is normally added to the room rate. If you are a day-tripper to the island, you will need to buy a day pass, Tageskarte, from one of the kiosks that can be found along the beaches.

Naturism is quite popular in this part of the world, so those wanting to go au naturel or those of a modest nature should remember that beaches labelled FKK are designated for naturists.

## Sylt Airport (GWT)

Sylt Airport, situated 2 kilometres west of Westerland, primarily handles summer seasonal scheduled traffic to major German cities. While

there is no direct bus service to/from the airport, various hotels provide shuttle services. Given its proximity to the city centre, walking is a feasible option. Alternatively, visitors can opt for car rental or taxi services. For those arriving from farther destinations, flying to Hamburg and then taking a train to Westerland/Sylt, which takes around 4 hours, is a viable alternative.
