Colombo is the financial and cultural centre of Sri Lanka, an enchanting island lying off India's southern tip. These city folks go about their daily business with a cheerfulness born of optimism in this noisy and traffic-congested metropolis. But despite being known as a chaotic city, Sri Lanka's capital offers a handful of attractions for first-time visitors, including old colonial buildings, breathtaking religious temples, a beautiful shore, and tasty food.

THE CITY

Vidu Gunaratna/Shutterstock.com

Colombo sits on the west coast of Sri Lanka and has developed from an old seafaring port into a huge urban sprawl bristling with an Asian atmosphere. Around the historic centre of Fort are colonial facades of banks, buildings and tumbledown shops and streets teeming with people, trishaws, bicycles, buses—and the occasional cow. Towering above Fort to the east are gleaming skyscrapers reflecting modern Colombo, but wherever you go in the city, you stumble across history, culture, and friendly folk.

DO & SEE

Curioso/Shutterstock.com

It would be difficult not to immerse yourself in the serenity of Buddhism, which is practised by the majority of Sri Lankans. Yet, Colombo is home to all religions as evidenced by temples, mosques, and churches sprouting amidst a jumble of Dutch and British-built buildings, a legacy of its colonial past.

Seema Malaka Buddhist Temple

Designed by Sri Lanka's leading architect Geoffrey Bawa in the late 19th century. The Seema Malaka Buddhist Temple is a peaceful oasis in the

middle of hectic Colombo. Come here for some mediation and rest and be amazed by this beautiful piece of architecture and design.

Best Time To Visit

With sunny and enjoyable weather pretty much all year round, there isn't really a bad time to explore Colombo.

However, if you want to avoid the monsoon season, then don't plan your trip from June to September. Having said that, the best time to visit Colombo is usually from January to March, when days are more pleasant and when festivals such as the Duruthu Perahera and the Poya Festivals take place.

If you want to get great prices on accommodation and flights, then May is the best month, when the city is also less crowded. Watch out for the beginning of the monsoon season! November and December are usually hot and humid, but that's when you can catch the Deepavali celebrations, the Hindu festival of lights, which last for five days.

Photo: VectorA/Shutterstock.com

Public Transport

Buses run from 5am-10pm and are generally crowded, slow, and a bit confusing. When in doubt about routes, bus numbers, and stops,

ask a local. The best way to get around is to walk or flag down a trishaw. Always agree to a price before accepting a ride in a trishaw and pay the exact fare.

Photo: Pierre-Luc Auclair

Taxi

Taxi is the easiest and most comfortable way to get around the city. Most of the cars do not have a taxi meter so always decide on a price before

the journey starts.
