Miami is known for its glamour and cosmopolitan vibe, but what truly sets this city apart is its miles of sandy beaches, which coupled with year-round sunshine and pleasant warmth have cemented Miami's position as a top travel destination. Describing it merely as an international metropolis would be a gross understatement, given its North American core infused with Caribbean flair, a generous dose of Latin American influence, a hint of African heritage, a touch of Asian influence, and a sprinkle of European charm. All these elements and their fascinating blend give Miami a vibrant and exhilarating cultural life.

THE CITY

Mia2you/Shutterstock.com

Immigration has played a major role in Miami's explosive growth over the last 80 years, and this has naturally had a great influence on the shape of Miami today. Its people make the city pulsate with a large and vibrant multicultural art scene, while its location at the sea and in the sun has attracted life-indulging pleasure-seekers from all over the world: the lazy beach culture by day gives way to infectious musical rhythms by night.

Miami - in this guide also referring to Miami Beach, which is built on a sandbar across Biscayne Bay - is a city of contrasts: across the street from one of the country's most exclusive nightclubs, visitors in the know can catch a gritty open mic night, and salsa clubs and musical theatre of the highest caliber exist here side by side.

Little Havana and Little Haiti are the centers of Caribbean life in the city, while the Art Deco architecture near South Beach showcases Miami's heyday in the roaring 20s, mixed with today's latest fashion in dining, wining, living, and clubbing. Miami Beach exudes a celebrity lifestyle, while Miami itself has fast become an international cultural hot spot as a center of Latin and North American art and gastronomy with inspiration taken from all corners of the

world.

Miami has picturesque beaches, exceptional nightlife, plentiful shopping opportunities, and delicious dining options. Although there is an abundance of things to do in the city and on the beach, visitors should not pass up the chance of taking one-day excursions to see some of the breathtaking natural surroundings.

DO & SEE

Patrice_Audet/Pixabay.com

Miami has unlimited ways to charm its visitors, as the city's natural beauty and its surroundings are breathtaking, while its great climate offers chances for outdoor activities pretty much all year round.

While staying close to the city will allow you to enjoy some of the best beaches on the planet, do also explore a little further and visit the wonders of the Everglades or the Florida Keys.

Even though the weather nearly forces you to stroll around in the sun, Miami's architectural past and its vibrant art scene will tempt you to spend some time indoors, and the warmth of the vastly international population will make you want to stay here for good.

South Beach

South Beach, or SoBe for short, is Miami's most popular destination and is widely regarded as the world's ultimate nightlife hotspot. Even Ibiza can't compete with the vibrant energy of this beachside neighborhood. Situated at the southern end of Miami Beach, SoBe is home to numerous hotels, restaurants, bars, and clubs, all surrounded by a wide expanse of white sand and the soothing sounds of the ocean, creating an enchanting atmosphere.

This buzzing scene draws visitors from all over the world who come to experience the unique mix of sun, sand, and nightlife that SoBe has to offer. The neighborhood's trendy bars and clubs cater to a diverse range of tastes—from laid-back beachside lounges to high-energy dance clubs. And during the day, visitors can soak up the sun on the beach, stroll along the iconic Ocean Drive, or explore the art deco architecture that gives the neighborhood its distinct character.

Frequently Asked Questions about Miami (FAQs)

- What is the best time to visit Miami? As Miami has a long and beautiful season of summer all year long, deciding on when to visit Miami mainly

depends on what you are looking for and what you expect: while spring is ideal for enjoying outdoor activities and venues, the summer gets quite hot and somewhat deserted - keep in mind that these seasons have the highest threat of hurricanes.

During the fall, Miami comes to life again with its many events, such as the Miami Art Week, while the winter attracts most visitors with its ever-lasting sunshine and many events and adventures that are yet to come.

- Is Miami safe?

Overall, Miami is a safe city for tourists. However, like most U.S. large cities, Miami does have a few safety issues, especially regarding drugs, gangs, and crime. But visitors shouldn't worry about that since the most dangerous areas, such as Overtown, Model City, Downtown, Little Haiti, and Allapattah are not ordinarily on tourists' itineraries.

Pickpocketing can be an issue, so do not look too vulnerable and always use common sense when exploring the city.

- Is Miami worth a visit?

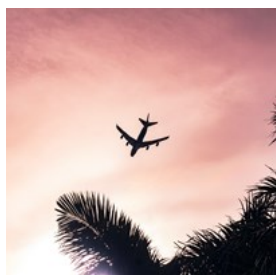

Yes, definitely! Miami is worth a visit not only for its year-round pleasantly warm weather, pristine beaches, and energetic nightlife but also for its astonishingly rich cultural life.

- Does Miami get hurricanes?

Yes. Southeast Florida, where Miami is situated along with West Palm Beach and Fort Lauderdale, is very susceptible to hurricanes. Hurricane season in Florida usually occurs between August through late October.

Miami International Airport (MIA)

Miami International Airport (MIA), located about 9 miles (14 km) northwest of Miami, is one of the busiest airports in the world. An Info-Center can be found on level 2 in Concourse

E, which also hosts a bank, post office, pharmacy, baggage storage, ATMs, and several car rental companies.

Before planning routes to and from the city, ask your hotel reception whether they offer a shuttle service from and to the airport. For leaving the airport, taxis are available just outside the baggage claim, and there is also a 24-hour 'Super Shuttle' van service at the very same spot, while bus services link the airport to all areas of Miami-Dade County. The 'Tri-Rail' train can be reached at the Airport Station just east of the airport.

Fort Lauderdale-Hollywood Airport (FLL)

Fort Lauderdale-Hollywood International Airport (FLL) is located 40 kilometers from downtown Miami, and yellow cab taxis are available on demand at all times. In general, the four terminals in the Fort Lauderdale Airport also offer the same amenities as Miami International Airport. At the transportation podium located outside the baggage area on the lower level at the curb of each terminal, you can find rate comparison charts posted on the wall.

While Feeder buses take you from the airport terminals to the Tri-Rail commuter train to Miami, there is also a car rental centre with many of the major car rental companies.

Public Transport

Despite the popularity of driving or taking a cab, Miami still provides ample opportunities for public transportation. The Metromover is an excellent way of moving around in downtown Miami. It is free and runs from 5 am until midnight seven days a week.

The Metrorail runs from the north to the south of Miami across downtown and operates every day from 5 am until midnight. Easy Tickets can be purchased at any Metrorail station.

The Metrobus service covers all of the Greater Miami areas, and several buses operate 24/7. Fares can be paid with small change either on board the bus, or before entering the Metrorail – in addition, the EASY Card can be bought in certain specified outlets across the city and loaded with money or for a period of time.

The South Beach Local is the cheapest and most scenic way to travel along South Beach. The route covers the Art Deco District, making stops at more than 20 points of interest. The bus travels along Washington and West Avenues, from South Pointe to 17th Street and the Convention Center, with service running every 10-15 minutes from 8 am until 1 am on weekdays and Saturdays, and from 10 am until 1 am on Sundays and holidays.

Taxi

Cabs can be hailed from the street but are also found at several taxi stands. Make sure to take a licensed one, and the easiest way to check is by spotting the words "taxi", "cab" or "taxicab" displayed on both sides of the car, as well as the driver's license and rate card inside the car.
