Over a million visitors flock to the Kingdom of Crystal each year, an area spanning Kronoberg and Kalmar counties in Småland, within the municipalities of Emmaboda, Lessebo, Nybro, and Uppvidinge. Many return time and again, and it's easy to see why. Watching the glowing hot glass mass transform into delicate crystal or robust bowls is a spectacle that never grows old. Here, you can discover renowned glassworks and brands such as Orrefors, Kosta Boda, Skruf, Mats Jonasson Målerås, among others. Additionally, you can enjoy the best of Småland's nature, with its forests, lakes, stone walls, and a wealth of cultural experiences like Vilhelm Moberg's emigrant route.

THE REGION

Glasriket AB

Mouth-blown glass has been produced in the Kingdom of Crystal since 1742, and it's the birthplace of renowned brands like Orrefors, Kosta Boda, Mats Jonasson Målerås, and Skruf. Here, designers and glassblowers continuously push the boundaries of glass, pioneering new techniques in the Småland furnaces. As a visitor today, you can encounter both functional and world-class art glass, and you're welcome to come right up to the glass furnaces to see these creations being made.

In summer, there's a chance to engage directly with this art form by trying your hand at glass blowing, painting and engraving. The adjacent shops offer a wide selection of glass products at factory prices, while the exhibition halls display the latest trends in Swedish art glass. The annual Glaskonst exhibitions, showcasing the glassworks' summer collections, begin with a collective vernissage in the last weekend of April and continue until the end of August.

Beyond the glass furnaces, Glasriket's quintessentially Småland landscape, which once played a crucial role in the founding of these glassworks, is perfect for outdoor activities like hiking, cycling, horseback riding, canoeing and fishing in the scenic lakes and rivers.

The area is also rich in cultural history and emigrant heritage, famously depicted by author Vilhelm Moberg in his series of novels "The Emigrants", which chronicles the journey and life of a group of people from Småland who emigrate to Minnesota in the United States. You'll also find plenty of shopping opportunities and activities. Explore the region's past by cycling on historic railway lines, enjoying a traditional glassworks evening, visiting charming local museums, or even learning the basics of glassblowing. The Kingdom of Crystal offers a diverse array of experiences to suit all tastes and interests.

GLASSWORKS

Glasriket AB

Visitors come to the Kingdom of Crystal to experience true craftsmanship, discover innovative design, and find great deals in outlets and glass shops. Step into the glassworks. It's here, amid the rumbling furnaces, that molten glass is shaped by skilled glassworkers into beautiful art — a mesmerizing spectacle!

Additionally, many glass factories offer the chance to try glassblowing, painting and engraving yourself. Seize the opportunity to hire your own glassblower and bring your deepest design dreams to life. In the Kingdom of Crystal, anything is possible, and there's always a lot happening in the furnaces. Here, you can attend

concerts, circuses, courses, or even enjoy a traditional glassworks dinner.

Mickejohans Konstglas

Step into the small glassworks in Örsjö, where master and designer Micke Johansson works. Here, you can see beautiful vases and masks in Graal technique, as well as other types of art glass and functional glassware.

Micke Johansson's shop is located in a converted barn next to the furnace, where neat glass sculptures, eccentric Graal vases, impressive Ariel pieces, and beautiful plates and bowls are displayed.

Bergdalahyttan

Bergdala is the only glassworks that still has a blowing room made entirely of wood. Visitors are welcome in to experience the genuine

blowing room environment. Here, the beloved classic 'Blå Kant' (clear glass with the blue edge at the top) is manufactured, along with new designs by young designers.

As a visitor, you're welcome to step inside and experience the authentic glassworks environment, and enjoy the spectacle of

craftsmen shaping molten glass. Adjacent to the studio, you'll find the shop, where you can buy a range of art glass, Bergdala's traditional products, and new items at factory prices.

DINING

Glasriket AB

In the Kingdom of Crystal, there are many opportunities for various culinary experiences, both in restaurants, cafes and bakeries, as well as in the many village cafes. Additionally, the specialty dish of the Kingdom of Crystal, hyttsill ('hot shop herring'), is served in the glassworks.

Hyttsill

Hyttsill, the 'hot shop herring, is an old tradition in the Kingdom of Crystal that dates back to when the glassworks also served as the

community meeting place. In the evenings, visitors are treated to food cooked in the cooling ovens, drinks, entertainment, and master-level glassblowing. Today, hyttsill is served to the public in Kosta, Målerås and in Bergdalahyttan for pre-booked groups, primarily in the summer and around Christmas, but other scattered dates are also available. Group bookings are accepted throughout the year.

Airports

Småland Airport, officially Växjö-Kronoberg Airport (VXO) is located 30 min away from the Kingdom of Crystal 30 min. Kalmar Airport

(KLR) is also only 30 min away from the Kingdom of Crystal 30 min.

Copenhagen Airport (CPH) is about 3.5 hours away from the Kingdom of Crystal 3,5 hours.

Public Transport

The Kingdom of Crystal is located across two counties, which makes travelling by public transport a bit more complicated. The most

frequent service is the train between Kalmar and Växjö, which stops at four places in the Kingdom of Crystal: Nybro, Emmaboda, Lessebo and Hovmantorp. Since all attractions are located in rural areas, the connecting bus service is not very frequent. It's feasible to travel from one

place to another, but renting a car is far more convenient.
