### Van Gogh House - Zundert

The Vincent van Gogh House: a living arts centre in the birthplace of Brabant's most famous artist ever, stands on the spot where Vincent van Gogh came into the world on 30 March 1853. The protestant Van Gogh spent his childhood

years in catholic Zundert, not far from the Belgian border. A reticent and introvert boy, he was educated at home and it soon became clear that Vincent was 'different'. In the Vincent van GoghHuis you can experience how his time in Zundert moulded him and eventually enabled him to mature to become a world-famous artist.

"A must see if you want to know Van Gogh"

Vincent's life had a tough beginning. As the son of the minister Theodorus van Gogh, he quickly became an outsider in the catholic village. He could often be found in the large garden with his younger brother Theo. He would have a wonderful time outdoors, but could also take comfort in it. Maybe that's one of the reasons why the countryside played such a large role in Van Gogh's later work?

More than a museum

In the permanent presentation 'Vincent van Gogh - the Roots of a Master', Vincent will take you by the hand and lead you through a re-enactment of his youth and you can learn more about his struggle with faith. Changing exhibitions show the enormous influence of Van Gogh on 20th and 21st century artists, modern art enthusiasts are therefore very much catered for. In addition, the Van GoghHuis has an artist in residence scheme, where an artist can literally step, and live, in Van Gogh's footsteps every day!

### Vincentre - Van Gogh Museum Nuenen

The village of Nuenen is also known as Van Gogh Village, and rightly so.

There isn't a place in the Netherlands where you can tread in the footsteps

of this famous painter quite so literally. Here, stories about Van Gogh are still vividly told, his letters are available for reading, and there are no fewer than fourteen locations which have been immortalised by Van Gogh in a picture or a painting. Experiencing Van Gogh's life in the Netherlands so intensely is not possible anywhere else.

"The museum is a gem"

In the Vincentre museum you will hear all about Van Gogh and read his own stories about Nuenen, where he lived and worked from 1883 to 1885. Who was he, how did he live, who did he socialise with, and why was he so passionate about Nuenen? It will all become clear during an educational tour with an audio guide in no fewer than eight languages: Dutch, English, German, French, Spanish, Italian, Japanese and Chinese. In the village itself, no fewer than 23 locations have a direct link with Van Gogh. Together, they form a walking and cycling route with interactive informational signs in Dutch and English.

From The Potato Eaters to The Starry Night

The Potato Eaters is based on a scene that Van Gogh saw at the house of a peasant family in Nuenen. It literally comes to life in theatre Het

Klooster. The world famous designer Daan Roosegaarde designed, based on Van Gogh's The Starry Night, the now famous and unique Van Gogh-Roosegaarde cycle path, for which thousands of twinkling stones were incorporated in the asphalt. This cycle path, between Nuenen and the nearby city of Eindhoven, is part of the Van Gogh Cycle Route.

### Heritage locations in Brabant

This cycle route connects the five Van Gogh heritage locations in Brabant, which of course include Nuenen. You won't get any closer to Van Gogh than this. Or, as one of our enthusiastic guests wrote about Nuenen: "The same view that Van Gogh had!"

### Van Gogh Church - Etten-Leur

Located in the centre of Etten-Leur, the Van Gogh Church offers a fascinating glimpse into what is probably the least known period in Vincent

van Gogh's life, but certainly not the least important!

#### 'The start of a career'

This is the church where Van Gogh's father was minister for seven years and where Van Gogh could regularly be found. Vincent van Gogh first registered as an artist in Etten in 1881. For nine months he lived and worked in the parsonage behind the Dutch Reformed Church. He also had his first drawing studio here.

#### 'Precious memories'

In the Van Gogh Church you can see how Vincent wrestled with drawing but became better at it through sheer hard work. How he was infatuated by his cousin Kee Vos and the drama which then

unfolded. How he had arguments with his father. How he left Etten at Christmas 1881 but never forgot it.

#### 'Around the Van Gogh Church'

All these unusual stories are told in and around the Van Gogh Church. Nine colourful windows, multilingual information panels, showcases, animation, a film, a garden, an oversized portrait wall and audio columns take you back in time. The 'Van Gogh in virtual reality' is new: you will be immersed in an almost a real life encounter with Vincent van Gogh through a computer simulated environment.

#### Van Gogh Shop

The Van Gogh Shop has a large variety of souvenirs. It is also the ideal starting point for a Van Gogh walk or a cycle trip through the surrounding area.

#### Van Gogh heritage location

The Van Gogh Church and Van Gogh Shop (Markt 4) are within walking distance from the bus and railway stations. There is a multi-storey car park very close to the church. The locations are also on the Van Gogh Cycle Route that connects the five heritage locations in Brabant with each other.

Cyclists are welcome in these inland sand dunes, on the beautiful wide cycle paths or on the mountain bike trail, but the park is especially

suitable to explore on foot or with a dog, if kept on a leash. With the help of the marked hiking routes you can explore the area on your own. It is advisable to bring a walking map so that you do not get lost! For mountain bikers, unpaved bike paths and routes have been set out and horse riding is possible on the marked riding trails (and free riding over the sand). Mountain bikers and riders need a permit, available at Natuurmonumenten, the surrounding catering establishments and riding schools.

## VAN GOGH

VisitBrabant

The worldfamous Vincent van Gogh was born and raised in North Brabant, in the south of the Netherlands. He created his first masterpiece The Potato Eaters in Brabant. It is where he made hundreds of sketches and drawings and where he painted most of his paintings. Come and walk in the footsteps of Van Gogh. Five locations in Brabant each tell a story of Vincent's unique life and work. Discover the place where Vincent was born, where he received his first drawing lessons, where he began his career as an artist in his very first studio, where he created his first masterpiece or where ten of his original works are on display. Brabant counts 39 Van Gogh Monuments.

### Kasteel (castle) Heeswijk

Together with St. John's Cathedral in 's-Hertogenbosch, the Grote Kerk church in Breda and the Markiezenhof in Bergen op Zoom, Kasteel Heeswijk is one of the four

official Top Monuments in Brabant. You can experience the chequered history of almost one thousand years of power, pride and culture of the elite of Brabant, all prominently located in the River Aa valley close to 's-Hertogenbosch. The castle is also the Nature Gateway to Brabant and is encircled by the Heeswijk Estate where you can spend some relaxing time among beautiful countryside. Come and enjoy this imposing monument weekly from Tuesdays to Sundays. 'Bij de Barones' is the place for visitors to the castle and estate to enjoy coffee, lunch or drinks in beautiful historic surroundings!

#### "Wonderful castle"

People of all ages are welcome in the castle. There are special children's tours on Wednesday afternoons and children can learn all about the knights who were once here in an exciting treasure hunt. That certainly made an impression on Susan: "I was allowed to put the helmet on my head to feel how heavy it was!" Coffee concerts are organised at the castle on Sundays from 12:00 to 13:00.

With a website and audio tour in English, and guided tours - which if reserved in advance are possible in English, German, French and Spanish - many overseas visitors make their way to Kasteel Heeswijk. To much satisfaction, according to this reaction: "This old and very well kept castle is definitely worth a visit if you are in the southern area of Holland. [...] The surrounding area is great for a stroll to enjoy the countryside. I would say this is a must see!"

#### Nature Gateway to Brabant

The Nature Gateway offers lovely walks from the castle through the woods and along the estate's avenues and fields, criss-crossed by the meandering River Aa. Sail in a whisper boat to

the unique Kilsdonkse Molen watermill and windmill, and visit the Museumboerderij (Farming Museum) in the village of Heeswijk-Dinther, or sample an abbey beer in the centuries' old Berne Abbey, the longest established religious community in the Netherlands.

### Van Gogh House - Zundert

The Vincent van Gogh House: a living arts centre in the birthplace of Brabant's most famous artist ever, stands on the spot where Vincent van

Gogh came into the world on 30 March 1853. The protestant Van Gogh spent his childhood years in catholic Zundert, not far from the Belgian border. A reticent and introvert boy, he was educated at home and it soon became clear that Vincent was 'different'. In the Vincent van GoghHuis you can experience how his time in Zundert moulded him and eventually enabled him to mature to become a world-famous artist.

"A must see if you want to know Van Gogh" Vincent's life had a tough beginning. As the son of the minister Theodorus van Gogh, he quickly became an outsider in the catholic village. He could often be found in the large garden with his younger brother Theo. He would have a wonderful time outdoors, but could also take comfort in it. Maybe that's one of the reasons why the countryside played such a large role in Van Gogh's later work?

### More than a museum

In the permanent presentation 'Vincent van Gogh - the Roots of a Master', Vincent will take you by the hand and lead you through a re-enactment of his youth and you can learn more about his struggle with faith. Changing exhibitions show the enormous influence of Van Gogh on 20th and 21st century artists, modern art enthusiasts are therefore very much catered for. In addition, the Van GoghHuis has an artist in residence scheme, where an artist can literally step, and live, in Van Gogh's footsteps every day!

### Heritage locations in Brabant

The Vincent van GoghHuis has its own VVV (Tourist Information) counter and is of course one of the five Van Gogh Heritage locations in Brabant. You can also get to the Van GoghHuis by bike via the Van Gogh Cycle Route that connects all the heritage locations in Brabant.

### Vincentre - Van Gogh Museum Nuenen

The village of Nuenen is also known as Van Gogh Village, and rightly so.

There isn't a place in the Netherlands where you can tread in the footsteps

of this famous painter quite so literally. Here, stories about Van Gogh are still vividly told, his letters are available for reading, and there are no fewer than fourteen locations which have been immortalised by Van Gogh in a picture or a painting. Experiencing Van Gogh's life in the Netherlands so intensely is not possible anywhere else.

"The museum is a gem"

In the Vincentre museum you will hear all about Van Gogh and read his own stories about Nuenen, where he lived and worked from 1883 to 1885. Who was he, how did he live, who did he socialise with, and why was he so passionate about Nuenen? It will all become clear during an educational tour with an audio guide in no fewer than eight languages: Dutch, English, German, French, Spanish, Italian, Japanese and Chinese. In the village itself, no fewer than 23 locations

have a direct link with Van Gogh. Together, they form a walking and cycling route with interactive informational signs in Dutch and English.

### From The Potato Eaters to The Starry Night

The Potato Eaters is based on a scene that Van Gogh saw at the house of a peasant family in Nuenen. It literally comes to life in theatre Het Klooster. The world famous designer Daan Roosegaarde designed, based on Van Gogh's The Starry Night, the now famous and unique Van Gogh-Roosegaarde cycle path, for which thousands of twinkling stones were incorporated in the asphalt. This cycle path, between Nuenen and the nearby city of Eindhoven, is part of the Van Gogh Cycle Route.

### Heritage locations in Brabant

This cycle route connects the five Van Gogh heritage locations in Brabant, which of course include Nuenen. You won't get any closer to Van Gogh than this. Or, as one of our enthusiastic guests wrote about Nuenen: "The same view that Van Gogh had!"

Come and experience the place in which Van Gogh was inspired by the rural Brabant countryside, easily accessible at no more than ten kilometres away from Eindhoven, city of technology and design.

### Van Gogh Church - Etten-Leur

Located in the centre of Etten-Leur, the Van Gogh Church offers a fascinating glimpse into what is probably the least known period in Vincent

van Gogh's life, but certainly not the least important!

#### 'The start of a career'

This is the church where Van Gogh's father was minister for seven years and where Van Gogh could regularly be found. Vincent van Gogh first registered as an artist in Etten in 1881. For nine months he lived and worked in the parsonage behind the Dutch Reformed Church. He also had his first drawing studio here.

#### 'Precious memories'

In the Van Gogh Church you can see how Vincent wrestled with drawing but became better at it through sheer hard work. How he was infatuated by his cousin Kee Vos and the drama which then unfolded. How he had arguments with his father. How he left Etten at Christmas 1881 but never forgot it.

#### 'Around the Van Gogh Church'

All these unusual stories are told in and around the Van Gogh Church. Nine colourful windows, multilingual information panels, showcases, animation, a film, a garden, an oversized portrait wall and audio columns take you back in time. The 'Van Gogh in virtual reality' is new: you will be immersed in an almost a real life encounter with Vincent van Gogh through a computer simulated environment.

#### Van Gogh Shop

The Van Gogh Shop has a large variety of

souvenirs. It is also the ideal starting point for a Van Gogh walk or a cycle trip through the surrounding area.

### Buurt - 's-Hertogenbosch

We all have associations with a neighbourhood, the neighbourhood feeling, making a neighbourhood, being in the neighbourhood, the centre and meeting point and a place where you want to be.

'Buurt' is the place just outside the centre to drink coffee (and we mean a very good cup of coffee), to work on your laptop, to chat, to read the newspaper, to have lunch, to have a drink, to laugh, taste good wines, play games, use Wi-Fi, try different beers, dine and sit in the sun all day. In summary, a place that is at home in all forms.

### De Houtloods - Tilburg

Planning a trip to Tilburg? Make sure to book your table at De Houtloods. This restaurant in the Spoorzone behind the

central station alone is already worth a trip to Tilburg. The interior is different than a regular restaurant. The open kitchen is placed at the centre of the restaurant. You can literally watch the chefs as you're having dinner. I always appreciate my plate so much more when I see how much effort the chefs have put into it! And they really do put a lot of effort in each dish. The combination of flavors and textures is perfectly in tune!

### RAK - Tilburg

RAK is a restaurant at the harbor of Tilburg, which is called the Piushaven (check that area out anyways, it's really nice).

RAK is literally located on the water, making it a wonderful location to visit. If you're eating inside you're floating on the water and on the big terrace outside you'll overlook the water. The interior has hints of soft pink, green and dark-blue and wouldn't misfit in a hip neighbourhood in London. For lunch RAK serves sandwiches, salads and soft shell taco's and the dishes for dinner vary from bavette to mussels.

### De Wagon - Tilburg

### HEUSDEN

VisitBrabant

The enchanting and historic fortified town of Heusden

This charming, medieval fortress town, Heusden, dates back to 1200, when an urban settlement was established beside the River Maas. A golden age dawned with the arrival of the fortifications: from the end of the 16th century the garrison town of Heusden was home to thousands of soldiers. Then, mostly as now, the town resembled the 17th century drawings made by the Amsterdam cartographer Joan Blaeu; a fortification surrounded by sturdy earthwork ramparts, bastions, ditches and ravelins. When the town was fully restored in the 1970's, Heusden was honoured with the highest European award, the 'Europa Nostra' prize for restoration.

Experience the fortified city of Heusden!

Heusden is a 'hidden gem' not widely known to foreign visitors. During your visit, you will see many historical houses, the harbour and fish market square, the museum and gardens, the defensive walls and the three windmills on the riverside (which can also be visited by appointment). In the visitors centre where the Tourist Office of Heusden is located in the old town hall, there is also a scale model of the

fortified town and a model of the old castle. Wander through its picturesque streets and alleyways and discover numerous buildings dating back centuries. This historic setting is home to galleries, speciality shops, culinary standard restaurants and pavement cafes. There are two well-equipped harbours for tourists arriving by water, and there are lovely views of the town, the river and the surrounding countryside, from the ramparts. A great destination for lovers of art, culture, history and good cuisine.

#### Discover the Loonse and Drunen Dunes

This beautiful National Park is located 8 km to the south of the fortress Heusden. The countryside is very varied, with high dunes formed by shifting sand, heath land, coniferous and deciduous woods, beautiful meadows and pools. This is a good location to discover nature, relax or be active outside, with hiking, cycling, mountain biking or horse riding. The choice is yours!

## DEN BOSCH

VisitBrabant

's-Hertogenbosch, commonly known as Den Bosch, is a charming and historic city located in the southern part of the Netherlands. It serves as the capital of the North Brabant province and is renowned for its medieval architecture, cultural heritage, and vibrant atmosphere.

### Historical Significance:

Den Bosch has a rich history dating back to the 12th century when it was founded by Duke Henry I of Brabant. The city walls, narrow lanes, and the remnants of its fortifications tell stories of its past, particularly its strategic military importance during various periods in history.

### Cultural Heart:

The city is a hub for art and culture. It is famously associated with the medieval painter Hieronymus Bosch, whose fantastical and highly detailed works were inspired by the city's unique character. The Jheronimus Bosch Art Center is dedicated to his life and art, displaying reproductions of his works.

### Architectural Marvels:

One of the city's most iconic landmarks is the impressive St. John's Cathedral (Sint-Janskathedraal), a stunning example of Brabantine Gothic architecture. It's known for its richly decorated exterior, a sublime interior, and

a set of whimsical sculptures, including the famous 'angel with a mobile phone'.

### Canal Tours:

A notable feature of Den Bosch is its canal system, particularly the Binnendieze, a network of ancient waterways that runs beneath the city. Guided boat tours offer a unique perspective of the city from the water, revealing parts of the old fortifications and providing insights into the city's history.

### Culinary Delights:

Den Bosch is also known for its culinary scene, including the famous 'Bossche Bol'—a large cream-filled chocolate pastry. The city's market square and side streets are dotted with various eateries, from cozy cafés to high-end restaurants, celebrating both traditional Dutch cuisine and international flavors.

### Events and Festivals:

The city comes alive with various events throughout the year, including the Carnival celebration, which transforms the city into a vibrant festival of costumes and music. There's also the Jazz in Duketown festival, which showcases a range of jazz performances.

### Shopping and Lifestyle:

For shoppers, the city offers a blend of boutique stores, artisanal shops, and international brands. The charming streets and squares provide a lovely atmosphere for a leisurely shopping experience.

### Green Spaces:

Beyond the bustling city center, Den Bosch also offers beautiful green spaces like the Zuiderpark and Prins Hendrikpark, perfect for relaxation and outdoor activities.

In summary, Den Bosch is a city that captivates visitors with its historical depth, cultural vibrancy, architectural beauty, and warm Brabant hospitality. It's a city where the past and present merge to create a delightful experience for tourists and locals alike.

### Kasteel (castle) Heeswijk

Together with St. John's Cathedral in 's-Hertogenbosch, the Grote Kerk church in Breda and the Markiezenhof in Bergen op Zoom, Kasteel Heeswijk is one of the four official Top Monuments in Brabant. You can experience the chequered history of almost one thousand years of power, pride and culture of the elite of Brabant, all prominently located in the River Aa valley close to 's-Hertogenbosch. The castle is also the Nature Gateway to Brabant and is encircled by the Heeswijk Estate where you can spend some relaxing time among beautiful countryside. Come and enjoy this imposing monument weekly from Tuesdays to Sundays. 'Bij de Barones' is the place for visitors to the castle and estate to enjoy coffee, lunch or

drinks in beautiful historic surroundings!

“Wonderful castle”

People of all ages are welcome in the castle. There are special children’s tours on Wednesday afternoons and children can learn all about the knights who were once here in an exciting treasure hunt. That certainly made an impression on Susan: “I was allowed to put the helmet on my head to feel how heavy it was!” Coffee concerts are organised at the castle on Sundays from 12:00 to 13:00.

With a website and audio tour in English, and guided tours - which if reserved in advance are possible in English, German, French and Spanish - many overseas visitors make their way to Kasteel Heeswijk. To much satisfaction, according to this reaction: “This old and very well kept castle is definitely worth a visit if you are in the southern area of Holland. [...] The surrounding area is great for a stroll to enjoy the countryside. I would say this is a must see!”

Nature Gateway to Brabant

The Nature Gateway offers lovely walks from the castle through the woods and along the estate’s avenues and fields, criss-crossed by the meandering River Aa. Sail in a whisper boat to the unique Kilsdonkse Molen watermill and windmill, and visit the Museumboerderij (Farming Museum) in the village of Heeswijk-Dinther, or sample an abbey beer in the centuries’ old Berne Abbey, the longest established religious community in the Netherlands.

## THEMEPARK EFTELING

*VisitBrabant*

National and internationally awarded theme park the Efteling

Efteling is the favourite day trip attraction in the Netherlands, with no fewer than six roller coasters and 29 unique fairy tales. Not surprising therefore that Efteling is one of the top attractions in Brabant, the Netherlands and even in Europe for families with young children, as well as for teenagers and grandparents. Adults marvel at the beauty of the Fata Morgana and enjoy the Piraña just as much as the children, and clench their knuckles just as hard before Baron 1898 plunges them into the mine shaft. Come and be enchanted by this must-visit in Brabant.

Zoover Award for the most popular holiday park and runner-up in the Diamond Themepark Award Europe.

The award-winning amusement park also offers several types of overnight accommodation, and with a total of 3000 beds it is perfect for a stay of several days. One of these - Efteling Bosrijk - won the Zoover Award in the Netherlands for the most popular holiday park in 2016. Accessibility for the disabled was also praised. The park also has special accommodation for disabled guests and there are special entrances for the disabled at several of the attractions.

Open 365 days a year.

De Efteling welcomes guests from all over the world. All information about the park, both printed and in the Efteling app is offered in English, French, German and Dutch. This means everyone can enjoy this inspiring park to the full, throughout the year. During the year the park also organises a New Year's celebration and, not to be missed, the Winter Efteling.
