The Azores

aaabbbccc / Shutterstock.com

Blue lakes bordered by flowers, dazzling views of the sea from high in the hills, and lush green landscapes of ancient volcanic craters - the nine islands of the Azores, situated in the middle of the Atlantic, just 4 hours from Boston and 2 hours from Lisbon by plane, are a paradise for nature-lovers. Choose a holiday on these beautiful islands and you'll rediscover the peace of the countryside in a stunning and unspoilt natural environment.

THE ISLANDS

Roman Sulla / Shutterstock.com

One of the best sentences that describe the Azores is: One Location, Nine Unique Worlds.

The nine islands of the Azores archipelago represent Europe's most westernmost point, and are located in the middle of the Atlantic Ocean.

Each of the islands has its own specific landscape and character, and the Azorean people follow age-old traditions complemented by the diversity of their beautiful surroundings.

São Miguel, the largest island is renowned for its flowers and green landscapes, its large scenic lakes, and the vibrant city of Ponta Delgada. On the Island of Santa Maria, you'll discover vine-covered escarpments surrounding the site of the Anjos chapel of Baía de São Lourenço, where Columbus prayed on his return from America.

At the centre of the Azores, five islands lie very close together. Terceira Island is steeped in history, as the home of Angra do Heroísmo, the first European city in the Atlantic and now a UNESCO World Heritage Site. Nearby, Faial Island is famed for its blue hydrangeas and its marina painted in colours of visiting yachts from all over the world. Opposite Faial is Pico, with the highest mountain of Portugal at 2351m. Its

slopes are covered with black lava fields and vineyards, and its people remember age-old whaling traditions. Wide green pastures dominate the island of São Jorge, while at the base of its steep escarpments, slivers of land called "fajãs" nestle by the sea. The smallest of this central group of five islands is Graciosa, which has a lake carved in dormant volcanic rock, while its vineyards are dotted with windmills.

The island of Flores resembles a garden surrounded by the sea. Its charming scenery is made up of scenic lakes carved into the volcanic rock. The centre of the miniature ninth island of Corvo also has its own volcanic crater, or "caldeira", which takes up much of its centre.

DO & SEE

Vicky SP / Shutterstock.com

Natural wonders greet you at every corner in these otherworldly islands. The nine islands of the Azores are in fact some of the world's highest mountains, and most interesting volcanic formations. Lakes and rivers, forest reserves, natural and recreational parks, protected landscape areas, endemic flora and fauna, and rare ecosystems combine to provide endless possibilities for those who venture off the beaten path.

Capelinhos Volcano

This otherworldly landscape should be on every visitor's itinerary. In 1957, the Capelinhos volcano erupted, and did not stop for a year and a month. Inhabitants were forced to abandon the island, which now lies deserted. Climb the volcano with the help of the official guide service to experience this unique and startling natural wonder.

Scuba Diving

Go scuba diving day or night, in sandy, rocky or mixed seabeds, in caves or shipwrecks. Different operators provide varying experiences for all levels, from beginner to professional. Snorkel to leisurely enjoy the abundant marine life of the archipelago's crystal clear waters, or dive in to a stunning ocean.

Lagoa Do Fogo

Located in the beautiful and green island of Sao Miguel, Lagoa do Fogo is the second largest lagoon on the Azores. Classified as a Natural Reserve, visitors marvel at the luscious beauty of this forest, which includes a caldeira - the walls of which reach up to 300m. Hikers should check out the "Lombadas Lagoa do Fogo" Trail to fully experience the fascinating array of flora and fauna characteristic of this geological phenomenon.

Lagoa Das Sete Cidades

Sete Cidades Lagoon is the largest freshwater lake in the Azores, with a length of 4.2 km and a depth that reaches 33 meters. Declared one of the 7 Natural Wonders of Portugal, it consists of two lakes - Lagoa Verde and Lagoa Azul (green lagoon and blue lagoon) - linked together and surrounded by a breathtaking scenery. Classified as Protected Landscape by Natura 2000, this natural wonder is surrounded by an extensive green area and beautiful rocky cliffs covered with trees and flowers.

DINING

Natalia Mylova / Shutterstock.com

Food lovers will appreciate the varied cuisine of the Azores. For example, if you like fresh fish, then these islands will make for the perfect holiday. The “Cozido” das Furnas is one of the most emblematic dishes of the island of São Miguel--cooked beneath the earth in near the Furnas Lake. Several ingredients are placed in a pot that is buried next to the hot water springs. It takes about five hours to cook through natural heat that seeps up, produced by volcanic activity. Tasting “Cozido” das Furnas is an unforgettable experience for all visitors of the island. Main courses and sweet puddings come in many varieties, and fine cheeses are locally produced, particularly on São Jorge Island. Home-grown

fruit includes pineapple and tropical passion-fruit, while perfumed green tea is grown on the island of São Miguel.

When it comes to complementing your meal with a drink, be sure to try the local red and white wines, plus the firewater (aguardente) from Graciosa Island, Biscoitos from Terceira Island and of course the “verdelho” wine from Pico.

Tony's Restaurant

Tony's Restaurant is known locally for its generous portions and friendly service, but most importantly, for the tasty and tender "Cozido das

Furnas", a meat and vegetable stew, cooked underground using the hot springs for over 6 hours.

So, if you want to try this famous local delicacy--and we think you should--make sure to book in advance.
