THE CITY

Maciej Czekajewski/Shutterstock

The heart of Agadir is its spectacular crescent-shaped bay. The white sandy beach stretches as far as the eye can see, offering some of the safest bathing in Morocco. It's the go-to daytime destination for most visitors.

The beach caters to all tastes, whether it's soaking up the sun, taking a camel ride, or catching some waves. Boulevard 20 Août, Agadir's main thoroughfare, traces the curve of the bay. Along this boulevard, you'll find exclusive hotels, beachside resorts, and a host of cafés, bars, and restaurants.

Just one block away is the city's main shopping area, centred around Avenue Hassan II and Avenue du Prince Moulay Abdellah. Further inland, the New Talborjt area is home to most of Agadir's budget accommodation.

DO & SEE

Elena Odareeva/Shutterstock

To get a taste of the hustle and bustle of old Agadir, head to the port, where you can watch fishermen bring in the daily catch, head out to the souk and do some haggling, or trek up to the remains of the 16th-century Kasbah and take in the spectacular sights of the bay.

Agadir Beach

Agadir's top attraction is the 10-km crescent-shaped beach. There are many places in Agadir that are well suited for surfing, like

Devil's Rock, Imsouane Bay and Anchor Point. If you are interested in learning to surf, there are a number of schools and camps to help you get started.

Kasbah of Agadir Oufella

Built in 1540, all that remains of the old Kasbah are the fortified walls. However, the trip up the hill to this historic site is worth it for the view

alone. Engraved into the hill in Arabic are the words God, Country and King; the Moroccans are forbidden from speaking ill of any of the three. If you are interested in history, you can easily find a professional guide to take you on a tour.

Best Time to Visit Agadir

The ideal time to visit Agadir largely depends on your tolerance for heat. June through August mark the peak tourist season, with

temperatures reaching their highest (22-27 °C). For the rest of the year, the weather remains warm and pleasant, albeit with a higher chance of rain and clouds. Average temperatures during this period tend to be more moderate, making it a comfortable time to explore the city.

Public Transport

The central parts of Agadir are very walkable, but if you get tired, there are plenty of local buses to take you to nearby beaches or city suburbs.

Remember to have coins to pay for the ticket since the driver doesn't carry a lot of change.

The main local bus station is located next to the main grand taxi stand at the south end of Rue de Fes, approximately 20 minutes by car from the city centre. It is very usual to arrive at Inezgane though, which is the bus hub of the region.

Taxi

By far the easiest and quickest way to get around town is by the cream-coloured Grand taxi or the orange Petit taxi. You can find them either at the taxi rank at the south end of Rue de Fes or Rue Yacoub el-Mansour in New Talborjt, or by hailing one off the street.

The Petit taxis are only allowed to drive within the city. The Grand taxis only take a minimum of 6 passengers, but you can also pay extra and hire the whole taxi. Fares are charged on the meter or discussed in advance.
