The Venetians, who owned it for 600 years, called it "the Flower of the East". Zakynthos is still one of the lushest and most-loved Greek islands, with green hillsides covered with flowers in spring and early summer, cliffs dropping to dazzling turquoise waters, and some of the country’s best beaches. Along with its natural beauties, it is claimed to be the sunniest among the island of the Ionian Sea, matching its natural beauties with a sizzling nightlife.

Zakynthos lost much of its centuries-old Venetian architecture to an earthquake in 1953, but Zakynthos Town retains a distinctly Italian feel, with porticoed streets, a spacious central piazza and a scattering of elegant old buildings. Perched on a hill above the town, a ruined and still forbidding Venetian castle dominates the mainland and overlooks the Gulf of Corinth.

Zakynthos’s hilly hinterland can be explored on a rented car, the perfect solution for a tour of the major resorts that certainly doesn’t fail to entertain the traveller.

Like most Greek holiday resorts, Zakynthos really comes to life between May, when the first charter flights arrive, and October, when the last bunch of holidaymakers takes off. From October until April, almost every hotel and nightspot on the island closes, and the resorts hibernate.

Make the most of your summer in Zakynthos with the easy going, laid back beach life by day and party by night.

Considering that the island is relatively small, Zakynthos features a surprisingly large amount of stunning beaches, which makes it easy to understand why thousands of holidaymakers flock every year to this corner of paradise.

The island is bathed by emerald crystal water that gently laps onto its shore, boasting an array of golden sandy beaches, secluded bays or picturesque coves.

The most-coveted beach resorts are located on the north-eastern and southern part of the island, down Laganas gulf, one of the most cosmopolitan and tourist developed area of Zakynthos.

On the west side, an abundance of dramatic cliffs and marine grottoes creates a breathtaking backdrop of unspoiled nature and hillside walks.

Shipwreck Beach & View (Navagio)

This beach is the trademark of Zakynthos. Located in the northwestern part of the island, it is said that Navagio beach is not only the most famous beach in Greece but one of the most impressive of the Mediterranean.
People used to call it Agios Georgios but, due to a shipwreck happened in 1983, the beach is now called Navagio, which is the Greek translation of the word "shipwreck".

There are two ways to approach this breathtaking miracle of nature: you can either travel by boat and swim in its turquoise waters, or by car, and admire the beach from the special viewing platform.
