## THE CITY

*Per Pixel/Visit Karlshamn*

Karlshamn, which was originally called Bodekull, was given its town privileges back in 1664 by the then-king, Charles X Gustav, and was named after him two years later. It had an ideal location on the Baltic Sea, the harbour was one of the deepest in Sweden, and Frisholmen (the Citadel), the fortified island at the mouth of the harbour, provided good protection from the Danes, who wanted to retake their land. At its peak, about 400 soldiers were garrisoned on the Citadel. They lived under harsh conditions and fought hard in the skirmishes with Denmark. The town was already home to many German and Dutch merchants, who were skilled seamen and traders. This was one of the main reasons why Karlshamn became such a prosperous trading town.

Despite several fires and outbreaks of plague in the 18th century, the town continued to thrive. There were more than 40 tobacco works here, and snuff from the region was sold all over Europe. In the 19th century, the arrival of the railway gave a real boost to shipping and trade, as even more German merchants settled here. Thanks to its snuff and tobacco production, two factories making punsch and the first and largest playing card printing works in Sweden, the town became known as a den of iniquity. To crown it all off, the 'King of Spirits' - Lars Olsson Smith -

whose face decorates one of Sweden's biggest export products, began his career as a distiller here.

The harbour quarter was a lively place where emigrants bound for America rubbed shoulders with merchants and smugglers, and there was a pub on every corner.

Karlshamn still has one of the largest ports in Sweden and life beats strong in the old heart of the town, the square. The pubs and the verandas where punsch was once drunk have made way for friendly restaurants and cosy terrace cafés where people meet and socialise. To get the best picture of what life was like in the town in times gone by you should visit the cultural quarter. There are beautiful timber houses and cobbled streets all over the town and many people know Karlshamn as the 'City with the Beautiful Backyards'.

## DO & SEE

*Visit Karlshamn*

To get a sense of what Karlshamn was like in the past you should head for the cultural quarter and visit Karlshamn's Museum, Skottsberg'ska Gården and the Punsch Museum — here it feels as if time has stood still for over a century. If you would rather get in touch with modern-day Karlshamn you might like to head for the nearby art gallery, explore the mysteries of science at Kreativum Science Center, try fishing on the

river Mörrum, visit Karlshamn's beautiful archipelago, or enjoy the freedom of the outdoors at Eriksberg Wildlife Park.

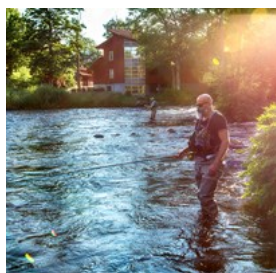

### The Archipelago

Karlshamn's beautiful archipelago extends from the western municipal border to Sweden's southeastern corner. This group of islands is called Hällaryd's archipelago and consists of 270 scenic islands of different sizes with stone or rocky beaches and meadows. Joggesö, Ekö, Hallö, Östra Bokö and Fölsö are the names of some of the islands. The largest in the archipelago is Tärnö. The archipelago boats visit most islands, starting at the archipelago terminal in the city centre across from First Hotel. Boats also depart from Matvik and Järnavik.

### Salmon Fishing in the Mörrum River

The Mörrum River is renowned worldwide for its exceptional salmon fishing, drawing enthusiasts from both near and far. Beyond the thrill of angling, visitors immerse themselves in the unique charm of the area, captivated by the river falls in central Mörrum. The locale offers more than just fishing, boasting a restaurant, a well-stocked fishing shop, and an aquarium adjacent to the exhibition at The House of Salmon. Here, guests have the opportunity to encounter the majestic salmon without navigating the swift waters, delving into the rich history that has solidified the Mörrum River as a

veritable Shangri-La for fishing aficionados across the globe.

Red deer, fallow deer, Père David's deer, European bison, wild boar and moufflon roam freely in this unique nature reserve in the archipelago. The tour goes through a fascinating rocky landscape of oak woodlands, dense hornbeam woodlands and knotty conifers. There is a rich bird life as well, and one of the world's largest stocks of the protected red water lily. The park consists of more than 925 hectares, of which 409 hectares of water. The fenced portion is about 900 hectares, which means that Eriksberg is one of northern Europe's largest wildlife reserves.

## The Emigrants Monument

The Emigrants Monument, an evocative representation of Karl-Oskar and Kristina from William Moberg's novel 'The Emigrants',

graces the beach promenade in Karlshamn's Hamnparken. Crafted by the skilled hands of Axel Olson, this life-size bronze statue was unveiled in 1959. Serving as a poignant memorial, it honours the over 1 million Swedes who, between 1848 and 1930, left their homeland in pursuit of a better life, escaping the clutches of hunger and poverty. Many embarked on their journey to the United States from the very port of Karlshamn. Olson's masterpiece captures the essence of this historical exodus, portraying Karl Oskar and Kristina gazing out over the sea, symbolizing the hopeful embarkation of countless emigrants on their transformative adventure.
