Växjö is the very heart of southeast Sweden - in the middle of Småland, in the middle of southern Sweden.

There is a lot to see, experience and do here - unique shops and world-class restaurants. A thriving culture and art programme, an intimate café culture and several award-winning culinary eating-houses. If you would like to experience genuine Småland nature, take one of the many cycle and footpaths straight out into the forests! A kingdom of crystal is just around the corner, as is the kingdom of furniture. Welcome!

THE CITY

Anders Bergön/Växjö kommun

Perhaps it is the “small metropolis” feeling, rich in contrasts, that makes so many people feel at home in Växjö. Multicultural, youthful and do ahead. Growing so that it strains at the seams. Despite a high tempo, there is also time for calm and reflection. It’s the contrasts that define the town of Växjö. On the one hand, lively pulse, shopping and entertainment and on the other, charming alleyways, cobblestones and red cottages. There is something to do for both big and small here - from a cathedral with roots in the 12th century to a modern skatepark in the middle of town, from Sweden’s best wine cellar to peaceful fishing trips only a stone’s throw from the main street.

Växjö Cathedral

Växjö cathedral is one of Småland's most visited places. The church is from the 12th century. The cathedral is located close to the shore of Lake Växjö. The imposing twin steeples can be seen over virtually the whole town. The cathedral, large and light, is full of Småland studio art glass and a wander around the building takes us through several of the bible's narratives. The triptych altar screen, sculptured by world-famous glass artist Bertil Vallien, forms the tree of life: from death to life.

Teleborgs Castle

Here you will meet a living castle and castle-life. The hotel business cares about the castle's history and it has been carefully renovated.

Teleborg's castle offers hotel and guesthouses. The castle has different common areas and meeting rooms; each and every one with it's on history, suitable for groups of eight up to hundred people. The castle also houses a restaurant where you can dine with a view over the garden.

Teleborgs castle was a wedding gift from the wealthy and slightly eccentric count Fredrik Bonde af Björnö, to his young wife Anna Koskull. The exterior of the castle today is virtually unchanged and is surrounded by the castle garden.

Malmö ≈ 2 hours

Gothenburg ≈ 3 hours

Stockholm ≈ 3,5 hours

Copenhagen/Copenhagen Airport ≈ 2,5 hours

TICKETS

At SJ you can book your train ticket - they lists all available train journeys.

Other train companies in Sweden:

- Snälltåget
- Öresundståget
- Krösatåget
- Länstrafiken Kronoberg

Note! You can not buy tickets on board the trains.

GOOD TO KNOW

- Please note that you can not buy tickets on board the trains, this applies to all distances

operated by SJ and Öresundståg. If you are unsure, check with the train company.

- Ticket machines for payment with Länstrafiken's travel card (valid on Öresundståg) and Swedish and international credit cards are available at Copenhagen Airport, Kastrup, and Hovedbanegården in Denmark.

- Remember to investigate with each train company what applies to their journeys for luggage and bicycles. On Öresundståget you can bring your bike as long as there is space. There is room for maximum of nine bicycles per train, in the low-floor part in the middle of the train. Buy a bicycle ticket in the ticket machine at the station. At SJ, you can bring a folding bike in a bicycle bag.

- All Öresundståg have well-functioning mobile connection installed, which allows you to surf on your own mobile network and talk on mobile with the same performance as outside the train. There is no wifi on the Öresundståg. All SJ high-speed trains have 4G for quick connection.
