During summer, numerous outdoor activities are also possible. In-between adventures, you can recharge your batteries in one of Idre's picturesque restaurants, cafés and pubs.

THE DESTINATION

Linda Raituma Skanste/Shutterstock.com

Idre, a vibrant sports hub, thrives in both summer and winter. This town boasts Sweden's most picturesque golf course and offers easy access to the majestic mountains of Stådjan and Nipfjället. At the heart of Idre is the Idre Fjäll resort, a family-friendly destination packed with activities. From exhilarating rapid shooting and serene canoeing to winter favourites like dog sledding and cross-country skiing, there's something for everyone. Idre is also a haven for fishing enthusiasts, with the Storån river and numerous pristine lakes dotting the landscape.

DO & SEE WINTER

Viktorishy/Shutterstock.com

Idre has one of the biggest ski resorts in Sweden, which makes it a great place to be if you love winter sports. With over 500 km of cross-country tracks, 2,400 km of snowmobile trails and 40 ski slopes, there is plenty to do here during the cold season.

Alpine Skiing

Idre Fjäll is one of the largest ski resorts in Sweden and has 40 slopes of various difficulties for alpine skiing, all of which can be reached with the same lifts. Once on the top, you'll be able to ski in four directions.

In order to access the slopes and the lifts you'll need passes that can be obtained at the tourist office, at Idre Fjäll reception and at some local businesses.

Ski lessons are available for both children and adults.

Skiing at Idre Fjäll

The best thing about Idre Fjäll is that you can ski in all directions, and no matter which way you head, there are slopes suitable for both the experienced skier and the beginner. Even if you split up, everyone ends up in the same place, ready to take the lift back to the top together.

At Idre Fjäll, you can also leave your car parked for the entire holiday. All hotels, restaurants, cafes and shops are within walking distance of the ski slopes.

Skiing on Fjätervålen

Fjätervålen mountain is where both beginners and advanced skiers find their delight. The vastness of the skiing area relative to the

number of guests means it never feels crowded, and the slopes don't get overused. Perfect for smooth carving, but also a favourite spot for many alpine clubs for training and competitions. The slopes meet international FIS norms for slalom, giant slalom, and women's super-G.

The fact that all slopes converge in one place is a definite advantage. Everyone can ski their favourite slope, but it's always easy to find each other again at the foot of the mountain.

Cross Country Skiing in Dalarna

Northern Dalarna boasts 560 kilometers of well-prepared cross-country ski tracks waiting to take you on new adventures. The

trails are divided among 19 different track centers, with at least one near each of our four main localities: Grövelsjön, Idre, Särna and Älvdalen.

There are plenty of illuminated ski tracks for evening tours in the winter darkness.

Cross Country Skiing at Idre Fjäll

The ski resort Idre Fjäll has 80 km of well prepared tracks for cross country skiing, 30 of which are illuminated. They all start from the ski

stadium adjacent to Västbacken and offer beautiful landscapes. The trails leading to the lake Burusjön or the Städien and the Nipfjället mountains are especially scenic.

To ski you'll need a trail pass that you can get at Idre's tourist office, at Idre Fjäll reception and at some local businesses. Private lessons are also available for beginners.

surroundings. In particular, the Älvdalen's area offers two great areas for snowmobiling: the Nordic Area (www.nordicarea.se) in the south and the Snöskoter Område Norra Dalarna (www.sond.se) in the north.

To drive a snowmobile here, you'll need a license that can be obtained at the tourist office, at gas stations and at some other local businesses. You'll also need to ask for map and information about the rules and regulations you need to respect.

If you don't have a snowmobile of your own,

there is a wide range of rental companies in the area, with the possibility to go on a guided tour. One of them is Idre Adventure.

DO & SEE SUMMER

Johan Dalstrom/Shutterstock.com

Idre is an ideal destination for summer vacations, offering activities and sights that suit various interests. From leisurely walking in the mountains to fishing or canoeing on a lake, you'll have plenty of options for a fun and active holiday.

Biking

Several biking trails are easily accessible from Idre Fjäll resort. The trails are unidirectional and have different degrees of difficulty

marked by colours: the green trails are the easiest and the red ones are the hardest, while the blue ones have medium difficulty. When the lift is in service you can easily go to the top of the mountain and enjoy the red downhill trails.

For road cyclists, there are long hills with a pristine road leading to Norway. For those coming for the day, there's access to showers in the sports hall, bike wash, and a sports shop if you need some new bike gear.

Idre Fjäll also features a practice area with jumps, drops, a pump track, stone steps and balance training. To access the practice area, as well as some of the trails, you need a pass that you can obtain at Idre Fjäll reception, at the bike rental of the Mountain Sports shop and at some local businesses.

Fulufjällets National Park

Fulufjället National Park was established in 2002 and is the largest national park in south Sweden.

Here, you will find Sweden's highest

waterfall — Njupeskar — at 93 meters high, as well as the world's oldest tree — an impressive 9,550-year-old Norway spruce named the Old Tjikko!

Njupeskar waterfall is 93 meters and thus Sweden's highest. The water falls freely 70 meters. The fog around the stream created the perfect environment for many rare mosses, lichens and vascular plants. The deep groove cut into the sandstone layers of the waterfall is a textbook example of vertical erosion. A few days around midsummer, the sun finds its way to the waterfall and gives it a magical blue light. But this occurs only in the morning between 3 am and 5 am.

More Info: The hiking trails on Fulufjället are well-marked, and the trail to the waterfall is 4 km long.

Hiking

The area around Idre Fjäll offers endless hiking opportunities. The most scenic and exciting trails allow you to reach the summit of the mountains

Nipfjället (starting from Nipfjället's car park) or Städian (starting from Städjan's car park). Once you arrive on top, you can enjoy the breathtaking views and perhaps a picnic. A shorter and easier hike starting from Nipfjället's car park is to the Lillnipen mountain. If you don't mind going a bit further, you can choose to hike in the Fulufjället National Park, the largest of its kind in southern Sweden. There you can see the country's highest waterfall — Njupeskar — and the world's oldest tree.

Don't forget to bring a map, some refreshments and good clothes for all weathers. If you need some company, you can join a guided hiking tour organised by the resort.
