Bathed in sunlight year-round, Seville has a charismatic and upbeat vibe. The mix of Roman, Moorish and Colonial influences have sculpted Seville's reputation as a cultural cornucopia. Tangled alleyways, labyrinths, exquisite cathedrals, and animated tapas bars line the Guadalquivir river, which winds its way through the Andalusian capital.

THE CITY

LucVi / Shutterstock.com

The Phoenicians arrived in this area first, establishing a number of trade colonies by the river. They taught the locals how to work with iron and created a new way of processing gold. The Romans came next and founded the town of Hispalis a few hundred years BC. Hispalis grew into a beautiful and prosperous city, but it never managed to emerge from the shadow of nearby Córdoba, until the Visigoths transformed Hispalis into a provincial seat and a centre of learning. In the 11th century, the Moors captured the city and re-named it Ishbiliya, but they too chose to make the grander city of Córdoba their capital. They even named it the Córdoba Caliphate.

After almost 400 years of civil war battles between Christians and Arabs, the Moors withdrew from their beloved Al-Andalus. Soon after, the inhabitants of Seville finally struck gold. When Christopher Columbus discovered a new continent in 1492, the exclusive trade rights were given not to Córdoba, but to Seville. The city quickly became the wealthiest and most cosmopolitan city in Europe, and retained that position for several hundred years. This eclectic mix of influences over the centuries have shaped the city we see today, and Seville's fascinating history is visible at every turn.

DO & SEE

Today's Seville is a lively place, bustling with culture, music, exquisite food and an unstoppable personality. Some of the city's main sights include the Moorish castle of Alcazar, the former upper-class neighbourhood of Santa Cruz, the promenades along the Guadalquivir River, the rougher Macarena neighbourhood with its Baroque churches, and the oldest bar in Spain, El Rinconcillo. The city's gigantic Parque de Maria Luisa is worth visiting, as are the bohemian chic bars in the Alameda de Hércules district.

Plaza de España

Take a stroll over to the colossal Plaza de España when you're in Seville. Nestled within the beautiful Maria Luisa Park, this architectural marvel was crafted for the Ibero-American Exhibition of 1929. The building presents a stunning fusion of styles — think Renaissance revival with a local twist — we're talking exposed brick and ceramics.

This plaza isn't just about the building. It also embraces a 515-meter-long canal encircling the square. Fancy a bit of romance? Hop on a boat and take in the beauty of the place from a whole new perspective. Just imagine — you, the water, and an architectural marvel providing the backdrop. Quite irresistible.

DINING

carpaumar / Shutterstock.com

Life in Seville seems to revolve around meals, meaning that there is a huge selection of restaurants serving both local and international specialities. The best eateries are traditionally Andalusian, in both ambience and cuisine. The locals eat late, and most restaurants only start filling up after 10 pm.

Tapas Bars

The Andalusian region, where Seville is located, is the birthplace of tapas and there are plenty of great places in the city to enjoy them — both in

terms of atmosphere and for the food itself. Visit Calle Mateo Gago and try several tapas bars.

La Fresquita is a hole-in-the-wall type place serving mini toasts with morcilla (blood sausage), and The Bodega Santa Cruz has a tasty tortilla. Bar Giralda in a former Moorish bathhouse is also worth a visit.

CAFES

IAKOBCHUK VIACHESLAV / Shutterstock.com

The locals in Seville are particular about their coffee. For example, they only have café con leche (coffee with milk) for breakfast, often with a croissant. Passport / Visa

Spain can be visited visa-free for up to 90 days by citizens of Australia, New Zealand, Japan, South Korea, Taiwan, Malaysia, Israel, UAE and

most countries in America. If you are not sure whether or not you need to apply for a visa, we recommend you to contact the embassy or consulate in your country. In order to enter the Schengen zone, international (non-Schengen) travellers need a passport that is valid for at least 3 months after the end of their intended trip. Citizens from Schengen countries can travel without a passport, but they must bring with them a valid ID during their stay.

Best Time to Visit

The best time to visit Seville is either spring or fall, when days are sunny and temperatures are mild. The city's biggest events, Semana Santa and Feria de Abril, take place in the springtime,

usually at the end of March or during April. Bear in mind that Seville can get really crowded and prices are generally higher during these weeks. Sevillian summers are some of the warmest in all of Europe and the heat could become unbearable, so try to avoid this period of the year.
