THE CITY

Next Skövde

The legend tells us that Skövde became a trading centre in the 12th century when the pilgrims came here to honour Sweden's first female saint Sankta Elin or Helena as she also was called. According to the legend, Elin was killed on her way back home after a pilgrimage to Jerusalem. At the place where she was killed, a spring was born. Both the tomb of Elin and the spring became a destination for pilgrims. With the pilgrims came trading and Skövde became a natural meeting point.

Skövde is located in between the two biggest lakes in Sweden; Lake Vänern and Lake Vättern. At the mountain Billingen, there is a big recreation area with cross-country ski tracks, walking trails, small fishing lakes, and a ski slope. At the mountain, you'll also find the beautiful Vallebygden with green hills, waterfalls, lakes, and several nature reserves. Around Skövde, you'll also come across remains from its history in the shape of grave fields, medieval churches, and unique stone settings.

The best way to come here is by train. It takes only one hour from Gothenburg and two hours from Stockholm. Skövde is the perfect place if you are looking for variation. The town's event calendar is filled with culture, sports, and entertainment - all year round. Go watch a

musical, go treasure hunting with GPS, or visit the coolest aqua park in Sweden!

In Askeberga, near Tidå, lies one of Sweden's intriguing mysteries—an impressive stone monument featuring 24 large stones arranged in an oval shape. Amidst medieval estates and

Helénsparken

In the heart of Skövde, Helénsparken is a charming green oasis featuring a playground and quaint shops housed in historic red cottages.

Believed to have been constructed in the early 18th century, Helénstugan is a residential gem that survived the significant town fire of 1759, making it a unique testament to Skövde's history. Named after its last inhabitants, Lotta and Petter Helén, the cabin preserves a piece of the town's architectural heritage.
